Kaushal Gupta

Senior React Native Developer | Mobile Engineer | 5+ YOE | React
Native, TypeScript, Redux
North Delhi, Delhi, India

Summary

Senior React Native Developer with 5+ years of experience building scalable, high-performance cross-platform mobile applications for Android and iOS.

I have contributed to and led development across 10+ projects, working end-to-end — from architecture and feature development to performance optimization and production releases. I focus on writing clean, modular, and maintainable code while delivering smooth user experiences.

My core expertise includes React Native, JavaScript, TypeScript, React Hooks, Redux / Redux Toolkit, REST APIs, Firebase, Git, and App Store / Play Store deployments. I have hands-on experience collaborating closely with product managers, designers, and backend teams to translate business requirements into reliable mobile solutions.

Known for strong communication and ownership, I enjoy solving real-world problems and continuously improving application performance and code quality.

Currently open to Senior React Native / Mobile Engineer opportunities and selective freelance projects.

Experience

TO THE NEW

Senior Software Engineer
November 2024 - Present (1 year 8 months)
Noida, Uttar Pradesh, India

As a Senior Software Engineer at TO THE NEW, I work on delivering high-quality features and enhancements for a cross-platform OTT application using React Native. My responsibilities include:

- **Feature Development:** Delivered multiple user-facing features including TV Guide, Dynamic Tabs, Overflow Menu, App Theme Changes, and Sponsee Pages, ensuring smooth UX and scalable implementation.
- **OTT Platform Experience:** Gained strong exposure to OTT player development, working extensively on media playback functionalities and enhancing user interaction with the player.
- **Video Player Expertise:** Hands-on experience with react-native-video, along with solid working knowledge of ExoPlayer (Android) and AVPlayer (iOS).
- **React Native New Architecture:** Contributed to migrating the application to React Native's New Architecture (Fabric & TurboModules), optimizing performance and future-proofing the codebase.

This role has strengthened my understanding of mobile video streaming, improved my cross-platform development skills, and deepened my expertise in React Native's evolving ecosystem.

Quadrafort Technologies

1 year 2 months

Senior Application Engineer

April 2024 - October 2024 (7 months)

Noida, Uttar Pradesh, India

I started my journey at Quadrafort Technologies as an Application Engineer and was promoted to Senior Application Engineer in recognition of my performance and ability to drive end-to-end project success.

Key Responsibilities:

- Led the entire project lifecycle, from requirement gathering to development, delivery, and post-delivery support.
- Maintained direct client communication, ensuring clear understanding of expectations and effective handling of feedback and support.
- Built and enhanced TV applications using React Native, gaining valuable domain knowledge in cross-platform and smart TV app development.
- Worked with the Salesforce React Native SDK, integrating mobile apps with Salesforce platforms for extended business functionality.

This role helped sharpen my project ownership, client-facing, and cross-functional skills while deepening my expertise in mobile app development and integrations.
